FARM REFERENDUM GETS UNDER WAY

COUNTY AGENT KINNAIRD IS SENDING OUT BLANKS.

FARMERS VIEWS WANTED

Fifteen Measures Now or Soon to Be Pending in Congress Will be Voted Upon.

County Agent Roy A. Kinnaird is today mailing out blanks to members of the Nodaway County Farm Bureau for the national referendum vote of farmers on proposed legislation in congress. The referendum is to be taken on fifteen measures considered most important to the prosperity of farmers in general. It marks the first attempt on a nation-wide scale to get an expression of opinion from individual farmers.

The grain futures bill, extension of more liberal credits to farmers, packer control legislation, laws to permit revenue for the national government and the possible shifting of federal taxation so that the farmer will bear a larger burden—these are the important questions which will be voted on.

The vote must be counted and transmitted to the American Farm Bureau Federation before June 15. County Agent Kinnaird is anxious to get an expression of opinion from every member of the Nodaway county organization.

"These matters are so important," he says in his letter, "that a number of representatives and senators in congress who represent the agricultural states, have formed a little organization among themselves without regard to party lines for the sole purpose of securing favorable legislation for the farm people whom they represent.

"They will do everything they can without regard to party lines to get such legislation passed as will prove beneficial to the farmer. One thing they need to know is just what the farmers want. To make their efforts most successful, they should be backed by an expression of opinion coming from so many individual farmers that the fact that they do actually represent the sentiment of the farming population cannot be denied."

In order to prevent any misinterpretation of the question submitted in the Farm Bureau Questionaire, a note of explanation follows each question:

Question 1

Do you favor commodity financing based on bonded warehouse receipts?

"Bonded warehouse receipts" may be likened to certificates of deposit of money in a bank; the commodity would be the "money" and the bonded warehouse the "bank." Warehouses are "bonded" by the Government under the Warehouse Act. Using wheat as the commodity, for example, the farmer would deliver his wheat at the "bonded warehouse" and receive a receipt certifying the grade, quality and amount delivered. This "bonded warehouse receipt" may then be used as collateral security in securing a loan at the bank. "Commodity financing" contemplates the pooling of "bonded warehouse receipts" and issuing debentures against them. These debentures would be salable in the money markets and the money so obtained would be available for the farmer.

Question 2.

Do you favor live stock financing based on an adequate pledge of animals and feed?

The use of feed as well as live stock as collateral security in securing loans forms a safe basis for live stock loans running a sufficient length of time to produce as well as to fatten or develop the animals.

Question 3.

Do you favor the development of a personal rural credit system based on proper safeguards?

At present it is possible to obtain credit for short periods for use in purchasing live stock, machinery and other equipment, but it is difficult to obtain long-time credit, such as is necessary for tenants farmers of for parties wishing to start farming. Several plans have been submitted, all with the same object in view; to fur-

TULSA PLUNGES INTO HER TASK OF RECONSTRUCTION

Riot Swept City Prepares to Rebuild Homes in "Little Africa"—Death Toll Is 30.

Tulsa, June 3.—After another night of restless quiet Tulsa awoke today ready to plunge into the great task of reconstructing the fire-swept "black belt" and rehabilitating the thousands of homeless suffering negro refugees.

Careful checking of the morgures and exploration of the devastated area known as "Little Africa" has cut the death toll down to thirty, twenty blacks and ten whites. This will probably be increased later as there are a number of wounded in the hospitals who are not expected to recover. A total number of more than three hundred whites and negroes together were wounded according to reports from hospitals and physicians.

A plan of reconstruction is now taking definite shape. A committee representing the Tulsa real estate exchange today began work systematically appraising property in the negro district burned and at the same time leading business and professional men were setting about to raise funds of $500,000 with which to rebuild the destroyed homes of the negroes.

SKIDMORE WILL HAVE 4TH OF JULY CELEBRATION

Business Men at A Meeting Voted to Have A Real Celebration—Committees Selected

July 4th will be celebrated in Skidmore this year for the first time in a number of years, says the Skidmore News. A good many years ago, Skidmore held a celebration each year in honor of the birthday of our nation; but the practice was discontinued several years ago and has never been revived until this year.

A number of the business men met Tuesday afternoon at the Model Drug Co., and voted to hold a real celebration here this year. The proposition was talked over in a general way and a number of committees appointed. No plans have been recided upon as yet, but the intention is to make this the biggest and best affair of its kind ever held in Skidmore. There will be plenty of amusement for all. There will be something doing all day, if the plans under consideration are carried out.

Following are the committees appointed at the meeting Tuesday afternoon:

General Arrangements—Geo. Paterson, W. G. Reynolds, B. O. Ford.

Finance—W. S. Linville, H. W. Montgomery, R. B. Foster.

Program—W. L. Charles, Frank Manchester, Miss Mary Ashbrook.

For speakers—F. H. Barrett, S. B. Garnett.

Advertising—T. A. Culley, G. L. Lewis.

SALE ENDS SEVEN PROSPEROUS YEARS

HARVEY L. HAINES DOES NOT REGRET ONE MINUTE

"DRY GOODIST" BY BIRTH

Advertising Has Made Haines Store "The Biggest Little Store in the United States."

Seven years ago Harvey L. Haines hunted all over Missouri, Iowa, Kansas and Nebraska for the ideal location for his new woman's store. Today, on the eve of his seventh anniversary sale, he says:

"I don't regret one minute I have spent in Maryville and I hope to goodness I will be able to spend the rest of my life here. There is nothing that Maryville wants that I wouldn't use my influence and money to help put over."

This seventh anniversary sale is an "appreciation" sale, says the boss of "the biggest little store in the United States." "It is not a profit making sale, by any means," he asserts.

Because the store will be just seven years old tomorrw—it was established June 6, 1914—the sale will last for seven days, one day for each prosperous year. Each year Harvey Haines has announced a greater sale; then he has gone ahead and made the next year's yet more successful.

The Maryville Haines store is one of three dry goods houses, the other two being at Sabetha, Kan., managed by a brother, C. S. Haines, and at El-Dorado, Kan., by another brother. F. H. Haines. The father, H. C. Haines, who started the first store in the family, retired from active business twenty-eight years ago. The stores are conducted separately, but their buying is done cooperatively, giving them a marked advantage in the wholesale markets.

The Haines store was a pioneer of the spot cash and one-price policy. In limited space, it has been a remarkable business in the seven years since June 14, 1921. The store room is utilized like a Pullman car. Every nook and corner is storage space for live merchandise. Each article has its place, and, except when laid before the customer for inspection, is always in its place.

"Keep the goods moving"—that's the secret of the "biggest little store," according to its blue-eyed manager. "Make advertising make them move," would be more descriptive of the store's business policy. One of the largest and most consistent users of newspaper and other forms of publicity, Mr. Haines has never been disappointed with the results.

No goods are carried over from season to season in the Haines store. There is an "orphan's box" in the store, into which every old or damaged or unseasonable article is packed and sent to Conception. This is done at the end of each season's business.

Many of the same salespeople that started with Mr. Haines with the opening of the store are still with him and just as loyal to the store as the boss himself. A school of instruction was formerly held each week for all the clerks, but it's wasted time now, says the boss. They're too efficient already. Of course the meetings are still held occasionally to discuss suggestions for the mutual benefit of store and customer.

Since his keen blue eyes opened on a world of buying and selling, Harvey L. Haines has never departed from the ways of merchandise. A born "dry goodist," he began his career counting the eggs the women brought to exchange for gingham and cotton bats in his father's store at Bigelow, Mo. For two years he tried the wholesale linen business in California, but the sunshine and oranges and blooming flowers of the coast state couldn't compare with Missouri's changeable moods. Besides he missed the personal contact with his retail customers. So he came home, and he's going to stay home, he says, until the guardian angel picks out a better habitation for him.

WATER SYSTEM PLANS FOR BARNARD NEARLY READY

A Preliminary Survey of the Town by An Engineer—Cost of Plant Will Be $15,000 to $20,000.

A water system for Barnard which has been agitated by some of the business men of that town for some time is rapidly coming to a head. V. W. Whitefield, engineer for E. T. Archer & Co., of Kansas City made a preliminary survey of Barnard Wednesday and said he would have the plans ready for submission to the town council by June 15. He figures it will cost between $15,000 and $20,000 for a plant.

DECLINE IN VALUE OF FARM PRODUCTS

SURVEY SHOWS 28 PRINCIPAL PRODUCTS STILL DROP.

ONLY 9 HAVE ADVANCED

Bulk of Sales of Important Farm Products as Low as in 1914 or Lower—Comparisons.

Jefefrson City, Mo., June 3.—During the month of May, 1921, the selling price of agricultural products in Missouri farms registered another decline on twenty-eight of the forty-three kinds representing the principal sources of farm income. Six kinds remained unchanged in price and nine advanced. The nine items showing increase are unimportant at this time of the year as to farm income. Ninety per cent of the annual income of the average farmer is from the fourteen products comprising live stock, grains, hay, dairying and poultry.

1914 Prices.

That the bulk of sales of important farm products has dropped to 1914 prices or lower is illustrated by comparisons between May of 1914 and May, 1921, naming the 1914 prices in each case. Fat hogs at the farms were $7.60 in 1914 against $7.20 in 1921; beef cattle $6.90 against $6.20; veal calves $7.70 against $6.80; sheep $4.60 against $4.60; wool 10 cents against 17 cents; milk cows $60 against $54; horses $124 against $75; corn 78c against 62c; wheat 68c against $1.20; oats 46c against 46c; potatoes $1.05 against $1.25; butter 20c against 28c; eggs 16c against 16c; chickens 12c against 19c.

Comparisons.

The following marketing news is the result of the May-time state-wide investigation of farm prices as made by the United States and State Departments of Agriculture, announced jointly by E. A. Logan and Jewell Mayes:

RELATIVES OF ORPHANS FOUND IN MARYVILLE

Sisters of Mrs. William P. Lytle Learn of Her Children Through Letter in Democrat-Forum.

After sixteen years, the orphaned children of William P. Lytle may find their father.

As the result of the letter published in yesterday's Democrat-Forum, a letter is now on the way to the orphaned daughter, Myrle, living at Columbia, Mo., which gives her information which may possibly lead to the finding of her father.

Mrs. Howard Whaley and Mrs. W. G. Gross of this city are aunts of the girl, and were sisters of her mother, who died when the children were small. Mrs. Whaley and Mrs. Gross were unaware of the whereabouts of any of the children until they read the letter published yesterday by the Democrat-Forum. According to them, Mr. Lytle visited in Maryville fourteen years ago, and two years ago they indirectly heard that he had become quite well-to-do and living in St. Louis.

The Lytle family formerly lived in Maryville, Mrs. Lytle's death occurring here sixteen years ago. Besides her husband, she left four children, Myrle, Robert, Ellis and George, who were taken to the Christian Orphan's Home in St. Louis. The daughter was adopted by Mr. and Mrs. O. A. Marr, who live at Columbia. The children are now grown and wish to find their father, and the youngest son, George, who has not been located. It is thought the latter may be living with his father.

DRUNK MAN, DRIVING A CAR, ARRESTED TODAY

Gives Name as Grover Hatcher—Ran Into James Arnett's Car and Took Off Hind Wheel.

A drunk man driving a car ran into and broke the hind wheel of James Arnett's car today about noon on South Main street. The man was arrested and was so drunk he was unable to give his name, according to Eph Tilton, city marshal, who made the arrest. Later this afternoon he gave the name of Grover Hatcher. Information charging him with driving while intoxicated and also for having the wrong license plate on his car was issued by Prosecuting Attorney McCaffrey this afternoon.

The license plate on the car driven by him was discovered to belong to a E. E. Hilsenbeck at Graham.

CHESTER CASE TO JURY TONIGHT, IS PREDICTED

Bets Are Being Freely Made the Jury Will be Out Less Than Two Hours.

Kansas City, June 3.—Denzel Chester's fate will be in the hands of the jury of his eleven peers by night, according to statements made by the attorneys for the prosecution and defense. Chester is charged with killing Florence Barton, youthful society matron on a lonely road on the outskirts of the city last October.

Bets are being made freely today that the jury will be out less than two hours.

PHILOMATHEANS SAY WOMEN MAKE BETTER EXECUTIVES

One College Literary Society Chooses Only Men for Officers While Other Will Have None

The much mooted question of the relative executive ability of men and women is expected to be settled forever at the State Teachers' College this summer. The puzzled will merely keep their eyes on the new officers of two literary societies, Eurekan and Philomathean. The former yesterday afternoon elected only men to office, while the corresponding positions in the latter will be occupied by girls.

The new officers of the Eurekan society are as follows: president William Richards; vice president Clarance Rising; secretary, Gordon Keller; treasurer, Alva Burch; sergeants at arms, Earl Bland and Robt. Birbeck.

Those of the Philomathean society are: president, Jennie Blacklock; vice president, Bernice Rutledge; secretary, Alma Eaton; treasurer, Faye Townsend.

Each society has planned literary programs and social activities which will be folowed during the summer.

To Work For A. B. Degree

Miss Hattie M. Hall returned Saturday from Kingsley, Iowa, where she was head of the English department in the Kingsley High School. She was accompanied to her home here by Miss Maymie Knowles, one of her pupils, who will stay for a few days en route to Kansas City to spend her summer vacation with her aunt, Mrs. Harry Johnson.

Miss Hall will attend the summer term at the State Teachers College. She has already received the degree of B. S. in Education and will take work leading to the A. B. Degree.

Mrs. Fred DeMoss and children, Frederick and Elizabeth, returned last night from several days visit at Stanberry and Guilford with relatives.

FARM REFERENDUM

(Continued from Page One.)

nish better credit facilities to farmers for use in promoting production.

Question 4.

Do you request that authority be granted the Federal Reserve Board so to classify rediscounts as to give priority to loans for basic production of all kinds?

"Rediscounting means the purchase by one bank of notes and bills of exchang held by another, the purchasing bank being protected by the selling bank's endorsement of the discounted paper. Federal Reserve banks may re-discount (for their member banks) short-time notes and bills of exchange 'issued or drawn for agricultural, industrial, or commercial purposes' and conforming to certain specifications which have been carefully formulated by the Federal Reserve Board." By basic production is meant farming, mining, lumbering, ect.

Question 5.

Do you favor increasing the limit on Federal Land Bank mortgage loans from $10,000 to $25,000?

This increase would enable a farmer adequately to finance the purchase of a quarter section of cornbelt land.

Question 6.

Do you favor asking Congress to submit to the states a constitutional amendment prohibiting the issuance of all tax-free securities?

Tax-free securities are state, county and municipal bonds in the main and represent an investment today of more than $20,000,000,000 held mainly by wealthy individuals and large estates. These bonds are properly just as land is. If these bonds escape taxation, a greater burden must of necessity be placed on other property.

Question 7.

Are you in favor of continuing the Excess Profits Tax?

Corporations now pay a normal tax of 10 per cent on net income in excess of certain credits, and the Excess Profits Tax. The Excess Profits Tax provides first for an allowance of $3,000 and 8 per cent on the invested capital, then the tax rate is 20 per cent up to 20 per cent on the invested capital, and above that figure is 40 per cent of the net income.

Question 8.

Are you opposed to the enactment of a General Sales Tax?

The tax proposed is a uniform tax of 1 per cent on the sales of all commodities.

Question 9.

Will you be able to move a materially larger amount of agricultural products if the American Farm Bureau Federation secures an adequate reduction in freight rates?

Farmers are evidently unable to pay present freight rates. If rates were lowered, would a greater volume of business accrue to the railroads?

Question 10.

Do you favor the Building of Farm to-Market roads prior to the construction of Trans-Continental highways?

The adoption of the farm-to-market roads policy means the construction of a system which will reach the largest number of rural communities; the adoption of the transcontinantal-high-way policy means the construction of cross-county highways or boulevards connecting large centers of population.

Question 11.

Do you favor the Great Lakes-St. Lawrence Waterway?

It is proposed by means of canal enlargement, lock construction and deepening of portions of the St. Lawrence River channel to make a waterway for ocean-going vessels from Great Lakes points to the Atlantic Ocean.

Question 12.

Do you favor other Waterway development for transportation, reclamation and power at this time?

Inland waterway development promises lower transportation charges, enlargement of irrigation reservoirs, and completion of water-power projects. An illustration of water-power development is at Muscle Shoals, Ala., where the completion of the dam will mean cheaper manufacutre of nitrates.

Question 13.

Do you favor placing the Packers Regulation by the Government and the vesting of such regulation in the Department of Agriculture?

Regulation of the packers is designed to provide governmental supervision and publicity and to prevent the packing house industry from securing a monopoly of the food supply of the nation.

Question 14.

Do you favor Legislation making illegal the practice of short-selling in Agricultural products?

"Short-selling" is contracting to deliver at a future date and at a stipulated price something which the seller does not possess.

Question 15.

Do you favor the Truth-In Fabric Legislation?

This legislation would make it necessary for those who manufacture cloth to stamp on it the percentage of virgin wool and the percentage of shoddy, reworked or adulterated wool, in all cloth sold.

Question 16.

Do you favor Enabling legislation for cooperative marketing?

This legislation would clearly define the rights of farmers' co-operative enterprises to market their products collectively and grant to them all the legal rights and privileges of corporations.

FOR THE
Seventh Time

We will open our doors tomorrow morning at 9 o'clock for the Biggest Sale Event each year that is held in Nodaway County.

For particulars read our double page advertisement in this paper last evening.

Anyone not attending this sale, it is a loss to them, as this is one time during the year that we do business without one cent of profit to ourselves.

Women's Tid Bits

PARIS FASHION GOSSIP OF MILADY'S WARDROBE.

Poke bonnets are charming and picturesque and in consequence prove often the wisest choice for bridesmaids.

A new collar seen on many new wraps is very deep at the side, on the shoulders and quite narrow at the front and back.

Pleated ruffles of white organdie trim some very pretty black satin frocks.

Drawnwork is often the only trimming of imported crepe de chine gowns.

Wide fringe is used extensively on the French dresses.

Calico is used for a number of quaint summer frocks. Calico, combined with linen, makes attractive garden or porch dresses.

Soft black Chantilly lace is charming over white satin. This combination makes adorable evening gowns.

Smartness may be won by the sharp contrast of black and white. Very chic is a new coat of black Canton crepe combined and piped with white Canton crepe.

Very smart the new sports suits, having brightly colored jackets with white skirts trimmed with wide bands of the colored material, so as to match the coat.

Attractive afternoon summer dresses will be made of printed chiffon. This new chiffon is very striking, decorated with huge flowers and queer butterflies worked out on a rather dark background.

The Egyptian sash-tied in front and held in place with a jeweled ornament is still seen on some imported evening frocks.

Bright gold braid is featured trimming on many dark blue coat dresses.

Fluffy tulle gowns are shown for the benefit of the bridesmaid.

Black is still considered the formal, most elegant and dressy color.

Ribbon trimming is the rage just now in Paris.

The new blouses are of unequal length—longer on the sides than in the front.

The "backless gown" seems quite "passe," for which let us all be thankful. It was as unfeminine as it was as a rule, unbecoming.

Coats are much straighter and have departed altogether from the loose lines of the dolman.

Sport hats of Canton crepe embroidered all over in bright metallic lozenges are quite the dernier cri.

The craze for metal trimmings is as much in evidence now as it was six months ago.

Pants For Creeper

Take a pair of stocking legs and cut a slit in them half way down from the top. Then sew them together so they form a pair of pants, and then run a tape through the top. They are the finest thing for the baby that creeps. Saves on the baby's stockings and keeps the dress from being in the way when the child is on the floor.—Mrs. George Mueller.

Card Table Cover

Sanitas cloth, such as is being used for doilies, bound with wool skirt braid and with some appropriate design painted or stenciled on, makes an attractive cover for a card table and can be wiped off. Saves a lot of washing and is is novel.—Dorothy Macrae.

Old Hot Water Bags

When hot water bags leak don't discard them. Cover the hole with adhesive plaster and use them filled with hot salt or sand. They will retain the heat better than water.—Mrs. Charles C. Paul.

Cleaning Up Easily

When making pies or cookies I spread a clean sheet of wrapping paper on the dough board to roll the pastry out on. When I get through I take the paper off and burn it. This saves the time and labor of scrubbing grease and flour from the dough board—Doshia Gates.

Mark Pleats On Skirt.

A pleated skirt of wash material will iron much more easily if in finishing the skirt the folds of each pleat are marked by a knotted thread in the hem. The knot will not be noticeable if the thread corresponds in color with the material.—Mrs. J. C. Stockdale.

To Whiten Clothes

To whiten clothes that have become yellow wash in usual way, soak over night in clear water into which a teaspoon of cream of tartar to one quart of water is used.—Mrs. Frank Hallman.

Ham Hint

Take slices of fresh ham and place in a dish and cover with milk. Let stand for an hour or more. Most of the salt will fall to the bottom and leave the ham sweet, with just the amount of salt to make it dilicious.—Mrs. Harry Myers.

On Baking Day

Here is a great help to mothers on baking day if out of bread and near meal time. Take a piece of bread dough, roll and cut in squares and fry in hot grease. Will take place of bread and will be quite a change for the children.—Mrs. Earl Huchinson.

When Sewing.

Make a paper cornucopia, hang it on your chair when sewing. Roll the paper up from one corner and pin up the tip. Drop into it all your loose threads. When through sewing throw the whole thing into the fire. This saves much tire and keeps your carpets and floors clean.

Have any of you tried putting oranges and lemons in boiling water before peeling? try it and see how easily they peel.—Mrs. T. C. Mitner.

A Good Chart of Conduct

A prominent merchant of New York City carried these rules of conduct in his pocketbook, accompanied by a memorandum to this effect: "Read these rules at least once a week."

Never be idle.
Make few promises.
Always speak the truth.
Never speak ill of any one.
Keep good company or none.
Live up to your engagements.
Be just before you are generous.
Earn money before you spend it.
Drink no kind of intoxicating drinks.
Good character is above all things alse.
Keep your own secrets if you have any.
Never borrow if you can possibly avoid it.
Never play at any kind of games of chance.
Keep your promises if you would be happy.
Make no haste to be rich, if you would prosper.
When you speak to a person, look him in the face.
Save when you are young, to spend when you are old.
Never run in debt unless you see a way to get out again.
Avoid temptation, through fear you may not withstand it.
Ever live (mistortune excepted) within your income.
Small and steady gains give competency and tranquility of mind.
Good company and good conversation are the sinews of virtue.
Your character cannot be essentially injured except by yourself.
If any one speaks evil of you, let your life be so that none will believe him.
If your hands cannot be usefully employed attend to the cultivation of your mind.

THERE is a big difference between Calumet and all other Baking Powders.

First—you see it in the cost. Calumet is sold at a moderate price.

Then—you observe it in use. Calumet has more than the usual leavening strength, therefore less is required.

Next—you notice it in raising quality—in the evenness—lightness and texture of your bakings. They look better—finer grained.

"S-o-m-e Biscuit!"

CALUMET BAKING POWDER

Finally—what a difference in the taste. There is a deliciousness, a goodness that can be had in no other manner. Biscuits, pies, cakes, muffins, doughnuts—never were so tasty—so all satisfying.

And then there is the satisfaction of knowing that Calumet is made in the World's largest, best equipped and cleanest Baking Powder Factories.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Biscuit Recipe

4 cups of sifted pastry flour, 4 level teaspoons Calumet Baking Powder, 1 level teaspoon of salt, 2 rounding tablespoons of butter or lard, ½ cup of milk, ¾ cup of water. Then mix in the regular way.

When Lincoln Was A Barefoot Boy---

Every scrap of printed paper that came to his hands was a treasure trove. He read it eagerly—conning every line—getting every worth while word.

What a harvest he could have garnered from a modern newspaper! And not the least interesting to him would have been the advertisements, with their stories and their pictures of products, appliances and services that have smoothed the course of life to a degree unknown and unbelievable in the rough pioneer days.

Nowadays new comforts and conveniences slip into our lives almost without our realizing it. We are liable to be rather matter-of-fact about it all. And advertising that has made it simpler to make and distribute profitably innumerable products at reasonable prices, has played a leading part in making our life so eminently easy to live.

Read over the advertisements and try to think what the things you see there would have meant to our forefathers. Then you'll realize what a service and what a convenience advertising is to you.

Read It. Make Use of It!

GUY ANTRIM, 15-YEAR OLD UP IN JUVENILE COURT

Charged With Beating Carl Riley, A 13-year-old Boy, and a Much Smaller Boy

A session of juvenile court was held today before Judge Dawson when Guy Antrim, 15-year-old boy, was charged with beating Carl Riley, 13-year-old boy and who is much smaller. Riley in the beating sustained three broken ribs.

Antrim was paroled by the court and given a lecture. The reformatory at Boonville is now crowded and no other prisoners can be accomodated. Antrim is to report to court from time to time.

Both boys lived about a mile and a fourth apart northwest of Parnell. The trouble took place May 21. Riley was charged with stealing some fishhooks belonging to Antrim and as a result Antrim proceeded to give Riley a thrashing.

HOPE TO HAVE NEW RED CROSS NURSE BY JULY 1

Miss Anna Heisler Leaves For Home —Miss Laughlin Not Able To Return.

Although the county is temporarily without a Red Cross nurse it will not be long before the work is resumed, it was decided at a meeting of the Nodaway County Chapter held last night. No one has been definitely chosen to take the place of Miss Anna Heisler, county Red Cross nurse, but it is hoped to have a nurse by July 1.

Miss Heisler left yesterday morning for her home at Odessa. She took the place two months ago of Miss Blanche Laughlin, who was forced to resign because of sickness in her family. Miss Heisler's appointment was for only two months, as it was thought that Miss Laughlin might be able to return at the end of that time. She cannot take up the work, however, and it is necessary to look for another nurse.

The weekly baby clinics held with such success under Miss Heisler will not be held this month.

Bills were allowed at the meeting last night and other routine matters disposed of. The chapter appropriated $15 a month for the purchase of materials for garments to be sent to the Committee for Far East Relief.

Those who attend the meeting were R. B. Montgomery, S. H. King, H. L. Raines, Prof. Bert Cooper, Prof. C E. Wells, Harry Todd, Mrs. C. D. Bellows, Mrs. C. C. Helmers and Miss Bettie Turner.

SAYS "HOLD-UP MEN" WERE MEMBERS OF SCHOOL BOARD

Barnard Editor Thinks Maryville Party Reporting "Rough Looking Fellows" Had Good Imaginations

A car of men living near Maryville who were on their way from St. Joseph, claim that they were badly frightened by some "rough looking fellows" who appeared on the road at the Baker school house last Friday night. There were three men by the road, according to the report given in one of the Maryville papers, and the approaching car was compelled to slow up, and the three men, on finding the car loaded with five happy go lucky souls with a vivid imagination, failed to do the dastardly deed and let the men go on in peace.

Now as amatter of fact, it is highly probable that imagination with which those men were blessed was cultivated or purchased, (they were on their way home from St. Joseph.) The truth of the matter is that the three "rough looking fellows" were three of America's most highly respected and stalwart citizens who had come together at the Baker school house to do some business relative to the school at that place. The three men were the school board of the Baker district and are not feared in the least by their neighbors. In fact they are highly respected by everyone in the community. They were Fred Stephens, Clarence Swann and Frank Pittsenbargar. It is highly probable than many newspaper reports of vile crimes and attempted hold-ups come from just such sources py-go-lucky souls remember that py-go-ulcky couls remember that there is no more peaceable and law-abiding community in the country than Baranrd and Baker vicinity and that imagination may be easily cultivated or bought.—Barnard Bulletin.

KING CITY NOW HAS ELECTRIC LIGHTS FROM MARYVILLE

The Maryville Electric Light & Power Co. is now furnishing the "juice" for King City users, the current having been turned on a few days ago from the Maryville plant. According to one of the newspapers of that city, King City is more than pleased with the new system.

This weeks Parnell Sentinel says: When will Parnell get the Maryville system?

We understand Manager Helmers of the Maryville company will meet with our city council next Tuesday night to talk over matters regarding lights for Parnell. We hope some good may result from this meeting.

The Elmo postoffice is now a third class office. This is a promotion and places the office in the presidential class.

VISITORS WELCOME AT NATIONAL CAPITAL

The Postoffice is in receipt of a letter from the department at Washington which it asks to local papers to print, as follows:

TO THE PUBLIC:

It is the wish of the President that visitors at the seat of government shall have every opportunity to get full information concerning all governmental departments. It is espesially his desire that all those who can come to Washington, to transact business with any department, or branch of the government shall be quickly advised of the location and means of reaching the particular department or bureau in which may be centered the business which they desire to transact.

For this purpose there has been established a Bureau of Information on the ground floor of the Post Office Dept. Building, located on Pensylvania Ave., cor. 12th Street, which is in charge of competent people, who will definitely answer questions of this character.

The public is invited to make use of this facility.

Will H. Hays,
Postmaster General.

At last a worm expeller has been developed which will get them all. IT IS MOORMAN'S LIQUID WORM EXPELLER and IT SURE DOES THE WORK.

Every worm expelled from a pig is worth a bushel of corn. There is no reason why a single one of your spring pigs should be hampered in the slightest with worms.

When hogs are wormed they will reinfest themselves very shortly unless a worm preventive is used. Moorman's Mineral Mixture is ideal for this and is very inexpensive.

In addition to preventing the accumulation of worms, it gives your hogs every mineral they should have for the best growth and development. It also maintains a good, loose bowel condition and aids digestion.

According to the most critical scale tests, Moorman's Mineral Mixture will pay you a good big profit on your investment in it. See Iowa State Experiment Station and other official tests on the necessity of minerals for hogs.

Use Moorman's Mineral Mixture. IT PAYS.

FIRST PUPIL ENROLLS IN VACATION BIBLE SCHOOL

Beverly Martin Pays $1 Fee for Daily Study Course—Faculty Is Announced.

Beverly Martin, daughter of Dr. and Mrs. Vilas Martin, is the first in Maryville to enroll in the Daily Vacation Bible School. She enrolled yesterday and paid the tuition fee of one dollar, becoming the first member of the school, which is to be conducted at the Presbyterian church from June 8 to July 12.

"Beverly is very eager for the school to begin," said the Rev. S. P. Allison. "A number of other parents have spoken of their pleasure in the prospects of such a school. They say they are glad to have some of the idle time of vacation occupied with such valuable training, and also to be able to send the young folks to a place where they will be well cared for and be sure not to get into mischief. The purpose in conducting the Daily Vacation Bible School is to serve the children of the community and we are delighted by the response thus far."

The children will be divided into groups according to ages. The youngest will be in charge of Miss Mary Lewis. The next older will be under the care of Miss Laura Craig. Mr. Allison will have the oldest group and will act as principal. Part time service will probably be given by Mrs. Gallatin Craig. Philip Colbert and some others. Some of the first class Boy Scouts of the church may be used to instruct the younger folks in craft work. This will give them a chance to do some good turns, and to put into practice some of their Scout training.

Miss Mary MacLeod, in charge of physical education for women at the State Teachers College, will assist in the recreational work if her schedule at the college permits. At any rate she will give some habit and health talks during the term of the school. Others are available if the enrollment requires a larger staff. It is expected that assistants will be added for each of the groups.

Any member of the staff can give information about the school and receive enrollments.

SUNDAY TO BE VISITORS' DAY AT BAPTIST CHURCH

Will Show Workings of Sunday School—Transportation Provided If Wanted.

Sunday morning will be Visitors Day at the First Baptist church Sunday school. The service will be held in its usual order, that the visitors may see the school at its work.

One of the features of the program will be music by the White Cloud quartet composed of Raymond Jones, J. D. Mutz, Alfred Jones and Thomas Parish, who will appear in the opening exercises. The class study will be conducted by the teachers at the regular time and visitors will be assigned to classes suited to their ages.

Sunday school will begin as usual at 9:30 o'clock and all departments will be assembled in the main auditorium at 10:20 o'clock for the closing exercises. An explanation of the organization will be made in which all classes of each department will be recognized. Miss Hilda Denny will tell a story for the children.

Transportation will be provided for all those who would otherwise be unable to attend. Those wishing a means of getting to the church are requested to call William Everhart sometime Saturday.

To Canada for Summer.

Mrs. A. Neil Somerville will leave Monday for Canada, where she will spend the summer. She will visit her sister, Mrs. S. R. Walters of Mac Bay, Quebec, and two brothers, D. C. Valty and E. L. Valty, living at Perce, Quebec.

The Life Story of Georges Carpentier

INSTALLMENT TWO

By James J. Corbett

Former Heavyweight Champion of the world.

(Written expressly for the International News Service.)

(Copyright 1921 by International News Service).

Pittsburg, Pa., June 3.—Under the watchful eye of Francis Descamps, who, in Carpentier's case at least, has proved himself to be a really great trainer, Europe's present heavyweight champion began to fill out and develop strength after he passed his fifteenth year.

He did not long linger among the bantamweights though he remained in the division long enough to whip Charley Ledeux, present French title holder of that class, who was better then than he is today.

It sixteen, Carpentier was a heavy featherweight. He annexed the French title in that division by defeating Lampin, a young Frenchman, who was growing up with him and he boxed with indifferent success at 120 to 125 pounds, once taking a severe beating in four rounds from young snowball. Descamps stopped this fight by tossing in the sponge.

Upon entering the lightweight division George found the going more to his liking. Dame nature was fast adding poundage to his frame and he grew stronger as the months rolled by. All this time he was learning valuable lessons in boxing, particularly studying the English methods. His one real setback as a lightweight was received from Henri Piet, who won a decision over him in ten swift rounds though the defeat did not hurt his reputation. He kept plugging along until, he became the recognized lightweight champion of France and crowned his efforts in this division with a victory over Young Nipper, from London, whom the English thought could beat any lightweight living. The victory over Nipper was scored in 8 rounds by the way of the knockout.

About this time Jack Meekins, a sturdy welterweight, was the boss of everything he surveyed in England and there was Marcel Moreau, of France, who had won a decision over Meekins and was cashing in on it. Constantly growing heavier and more ambitious, Carpentier determined to jump to the welterweight division and Descamps got him a match with Meckins, who came to Paris to fight. Meckins hoped to use Carpentier as a stepping stone toward a return bout with Moreau but at the end of ten rounds he did not know which corner was his own and several times during the bout he visited the canvas for long counts.

Carpentier's admirers who had feared Meckins would crush him began to wonder where this frail looking lad was going to stop.

Up to this time the French lad had never met an American boxer and he knew nothing of in-fighting, which is a made-in-America ring specialty, yet he used Frank Loughey as a stepping stone toward a bout with Bob Kustase who had taken the welterweight from Moreau. Eusteche (correct) was more rugged than Carpentier, but proved no match for him in science.

The sixteenth round of their battle in Paris, Georges unerowned him via the kayo route.

Mrs. Chas. Carmichael was taken to the Hospital at Maryville last Tuesday and underwent an operation for Appendicitis. Her condition at this time is satisfactory and it is thought she will soon recover.

Mrs. E. L. Mumford went to Valley Falls Kansas the first of the week to visit her father and other relatives.

Grant Morin our efficient street commissioner had a force of men and teams hauling dirt to grade the street from the Drug Store to Wagners Garage last week and now has the street in splendid shape. It is planned to build a concrete gutter on the north side of the street which will prevent the surface water from cutting the dirt away again.

Mr. and Mrs. C. E. Hull and family visited relatives at Amazonia and St. Joseph last Sunday and Monday.

Loren Chambers our west side stock buyer shipped a load of cattle to St. Joseph the first of the week. In the lead were two of the largest animals ever shipped from here. One of them a Hereford bull weighed 1940 pounds and the other a Shorthorn weighed 2345 pounds. The two of them ought to make enough "Bully Beef" to feed a small army.

The Township Board of Union Township have been talking of buying a tractor to use in grading the roads and have been "run ragged" by tractor salesmen for the past two weeks. Every fellow has the best ever and has a splendid line of talk to prove it. The Board has not yet decided what one to buy, but will endeavor to see some of the machines in operation before purchasing.

The Independence Township power grades has been at work on the road between Union and Independence Townships during the past week and did a good job of grading.

FIFTY YEARS AGO

David Bender has been appointed Post Master at Hopkins and regular mail service will be put on the road between that place and Maryville at once. It is badly needed.

Yehle & Torrance have moved their meat market into a neat little building next to Moss's Restaurant, where, with everything new, clean and tasty, they are prepared to wait on their friends.

Emigration, which has been slow for some weeks past, is beginning to come this way again. Several parties from Illinois purchased land last week, and more are coming.

We have some "girls of the period" in Maryville. We heard of one that brought a young man to a sudden stop, that evening, not many moons ago.

The new Board of Education have repaired the fence around the school house, which was much needed.

The State Board of Equalization, which is composed of the members of the Senate, met at Jefferson City. We find that Nodaway county has 560,968 acres of taxable land, being 42,000 acres more taxable land than any other county in the state. We also find they estimate our land to be worth $6.93 per acre.

Under arrangements perfected by the Shipping Board, American marines are to receive storm warnings by wireless from all parts of the world. Many vessels on the seas are without radio equipment and in these cases the warnings are to be passed on from ships receiving them by other means when such vessels are encountered.

BUY THE MACHINE YOU NEED

Poor Economy to Put Off Buying Because of High Prices If Efficiency Demands It.

A good deal has been said about farmers not buying machinery this year and every other year, but is is always poor economy not to buy a machine if it is needed.

In some communities farmers expect to use their neighbor's machines to get by without buying. If you are depending on your neighbor for a binder, mower or other machine, be sure it will be available when needed.

No doubt there are some who will be disappointed when they wish to use a machine and find it already in use. While most farm machinery is used relatively only a few days during the year, when it is needed, it is needed badly. If a crop is not harvested at the right time it will suffer a loss.

"If you are depending on an old machine that has about passed its days of usefulness," says E. W. Lehmann, farm engineer in the Missouri Agricultural Extension Service, "be sure it is in the best repair possible. Machinery in poor repair means loss because of inefficient operation. Repair parts for harvesting machinery should be secured well in advance of the harvest season if you would insure yourself against the necessity of buying a new machine.

"Close cooperation between the dealer and the farmer is necessary to get the very best service out of machine. When a dealer sells a machine to a farmer he is selling more than a machine he is selling service, and when a farmer buys a machine or parts to repair a machine he is buying service. He might pay more for service by using old machinery than by paying the price for new. In other words buy what you need."

If the name of any man is erroneously published in the list of draft-evaders now being made public, the War Department will make public apology, the Secretary of War has announced. Every effort has been made to check the list but it is possible that errors might have crept in.
